

Aloha k kou,

We wanted to provide members with an update on the next steps post-IMLS Listening Session. Please know we are aware and acknowledge that there are many conversations happening around different important issues. We would like to focus on IMLS first, since we just held the listening session.

Purpose of the IMLS Listening Session

The IMLS Listening Session invited members to share how their law libraries have been affected by the dismantling of IMLS, and we are deeply grateful to those who participated. While the meeting centered on IMLS, it also highlighted the broader concerns about the uncertainty of our external environment and organization. These are essential questions, and we invite continued conversation, starting with the [Virtual Members Open Forum on May 22, 2025](#).
